Expertise

Frontend Web Development

Backend Web Development

Database Management

Language

Bosnian

English

ABDULLAH SINANOVIĆ

Web Developer

Profile

Although trained as a full-stack developer, I find my passion leans more towards backend development and solving the intricacies of unseen systems. However, my substantial understanding of frontend technologies compels me to remain engaged in that area as well.

Work Experience

2022
-
Current

Travian Games

Freelance Translator

- 2022-2024: Translating all game content from English to Bosnian language.
